Welcome to **YourHairLossSite.Com**

Every one who is affected by hair loss is searching for different kinds of products and remedies that are out in the market prevent further losing of one's hair. Every year, there are new hair loss products that take testimonies from customers. He these products only find men as their target customer. This is because years ago, hair loss used to be a common problem a But now, women, from all walks of life, are also victims of this hair dilemma. Although many hair loss products for men are this does not mean that it could be used by women as well. Since women have various reasons why hair loss happens which men's the remedies should also be different as well.

When Adding a review then just click **Add a Review** and this will shows up:

A screenshot of the 'Reviews Script' admin interface. The top navigation bar includes 'Configuration', 'Categories', 'Reviews', 'Articles', 'Templates', and 'Logout'. The main form is titled 'Product Name' and 'Product Description'. The 'Product Description' field has a rich text editor toolbar with various icons for text formatting, alignment, and insertion. Below the description field, there are dropdown menus for 'Product Category' (set to 'Adsense') and 'Product Thumbnail URL' (with an example: 'http://www.yourdomain.com/images/thumb.jpg'). Below that is the 'Product Large Picture URL' field (with an example: 'http://www.yourdomain.com/images/largepic.jpg'). At the bottom, there is another 'Product Short Review' field with its own rich text editor toolbar.

To modify the header and footer then click **Edit Header and Footer Template** link.

A screenshot of the 'Reviews Script' administration interface. At the top, there is a navigation menu with links: 'Configuration', 'Categories', 'Reviews', 'Articles', 'Templates', and 'Logout'. Below the menu, there are three main tabs: 'Header Template', 'Footer Template', and 'Default'. The 'Header Template' tab is currently selected. On the right side, there are three buttons: 'Edit Header and Footer Template', 'Edit Review Template', and 'Edit Article Template'. The main content area shows a text editor with the following HTML code:

```
<html><head>
<title>Your Site Title Here</title>
<meta http-equiv="Content-Type"
content="text/html; charset=UTF-8" />
<meta name="revisit-after" content="2 days">
<meta name="distribution" content="Global">
<meta name="rating" content="General">
<meta name="ROBOTS" content="INDEX,FOLLOW">
<meta name="resource-type" content="document">
<meta http-equiv="expires" content="0">
<meta name="author" content="Author Name Here">
<meta name="copyright" content="Copyright (c) 2007
Copyright here">
<meta name="KEYWORDS" content="your keywords here
separated by commas">
```

To the right of the code editor, there is a section titled 'Variable' with a small upward arrow icon. Below the title, it says '{header\_image} - Header Image.' At the bottom left of the interface, there is a 'Save Templates' button.

It is **HTML** so you must know the basic HTML. However even if you are not so familiar about HTML then just play around it and if ever worst comes then just click the Default Templates Tab and just copy and paste it to get the default Header and Footer. Once it's done, all pages has header and footer.

## REVIEW TEMPLATE

[Article Front and Header Information](#)

[Listing Template](#)

[Detailed Article Template](#)

[Default Templates](#)

```
{header_template}
<table border=0><tr><td valign=top>
<blockquote>
<strong>{art_title}</strong>
<br>{art_author}

<table width=200 align="right" valign=top>
<tr><td>{extra_form}<br>
{bookmarking_sites}</td></tr>
</table>
<br><br>

<b>Summary/Intro</b>
<br>{art_summary}
<br><br>
<b>Full Details - Body</b>
```

**Variables**

- {header\_template} - Header Template.
- {footer\_template} - Footer Template.
- {art\_intro} - Article Introductory
- {extra\_form} - Extra Form.
- {art\_title} - Article Title.
- {art\_author} - Article Author.
- {art\_summary} - Article Summary.
- {art\_body} - Article Body.
- {bookmarking\_sites} - Display Bookmarking

Save Templates

Just click the variables and it will put in the textarea box. So if you want to display the bookmarking sites in some part of the template then the variable **{bookmarking\_sites}** must be clicked or must be typed in the template box. It is **HTML** so you must know the basic HTML. However even if you are not so familiar about HTML then just play around it and if ever worst comes then just click the Default Templates Tab and just copy and paste it in the appropriate template. Once it's done then add as many reviews as you want.

Here's the Articles Templates:

**REVIEW TEMPLATE**

Article Front and Header Information | Listing Template | Detailed Article Template | Default Template

```

{header_template}
<table border=0><tr><td valign=top>
<blockquote>
<strong>{art_title}</strong>
<br>{art_author}

<table width=200 align="right" valign=top>
<tr><td>{extra_form}<br>
{bookmarking_sites}</td></tr>
</table>
<br><br>

<b>Summary/Intro</b>
<br>{art_summary}
<br><br>
<b>Full Details - Body</b>

```

**Variables**

- {header\_template} - Header Template.
- {footer\_template} - Footer Template.
- {art\_intro} - Article Introducto
- {extra\_form} - Extra Form.
- {art\_title} - Article Title.
- {art\_author} - Article Author.
- {art\_summary} - Article Summary.
- {art\_body} - Article Body.
- {bookmarking\_sites} - Display Bookmark

Just click the variables and it will put in the textarea box. So if you want to display the bookmarking sites in some part of the template then the variable **{bookmarking\_sites}** must be clicked or must be typed in the template box. It is **HTML** so you must know the basic HTML. However even if you are not so familiar about HTML then just play around it and if ever worst comes then just click the Default Templates Tab and just copy and paste it in the appropriate template. Once it's done then add as many articles as you want.
